Need Assistance Managing Your Sales Team?

Retain a Part-Time Sales Coach to Augment Your Existing, or Supplement Unavailable, Sales Management

Typically, companies find that most unrealized expectations in their sales performance have little to do with lack of ability, talent or activity. The problem is how these factors work in harmony with each other and if they are consistent with the overall business philosophy of acquiring and retaining customers.

The solution to these problems is to make sure everyone is working the same way and to capture and leverage the best practices of your most successful sales people. It can also require developing those skills in-house. Once you develop your sales processes and identify your best practices, you have a model from which your entire team can use and benefit. The results can be enormous since everyone will reach their full potential by using replicated prac-

tices and processes that are proven and effective. The end results to your customers are that you will achieve an effective and long-lasting relationship with them, which is where your long-term revenue and success comes from. We will:

- Re-enforce formal sales training received by sales reps
- Train your sales reps on best sales practices & methodologies
- Ensure sales reps have the appropriate skills set
- Analyze your lead flow system
- Help develop new Sales Processes (or enhance your existing ones)
- Coach and mentor your sales reps

Your integrity and professionalism has endeared you to Cromwell & Associates, Inc. We consider you a worthy mentor who always deserves our attention.
